

KJA.0150 1K Poly Grip Anticorrosive primer

KJA.0150 Poly-grip is a 1K semi matt anticorrosive binder and can be tinted to any colour and applied directly to ALL substrates. This includes aluminium, galvanised sheeting, steel and plastics.

It can be applied as a one coat finish with a 30 to 40 % gloss or used as a 1K primer and over coated with 1K or 2K topcoats

This is a very quick drying versatile binder and useful for commercial and industrial areas particularly with limited resources.

The product can also be adapted as a non slip surface which can be useful for walkways and other industrial surfaces

The KJA.0150 Binder has been tinted blue, and mixed 4:1 with the RDL.P333 1K Thinner
Two coats are applied directly onto an aluminium panel with a 1.4 tip, and a 5minute flash off between coats .
