

KKL.5000 Clearcoat Fully compliant
EU directive 2004/42/ce – High solids

The Product

The **KKL.5000 Anti-Scratch Novalux** is a fast drying, compliant, high solids clearcoat.

It gives a clear transparency to the paint finish, creating a long lasting, high gloss finish.

Excellent UV & weather protection

Suitable for over-coating all water & solvent paints.

Mix 2:1 - no thinners and applied with 2 full coats.

Available as 7.5lt Kit

The Product

The **KKL.7000 Superlack Novalux** is a compliant clearcoat with a **VOC level of 420gms per litre**. It is water clear, Ultra High solids and manufactured to be a quick drying clear, assisted by a range of 4 hardeners.

The longevity of the Ultra High gloss finish in the '7000' has been specifically developed for the 'KKL' range and is suitable for over-coating all water & solvent paints.

Mix 2:1 with 5% thinners, apply 2 full coats.

Available as 7.5lt Kit
